Re: In The Matter of CSD Energy Advisors LLC for A Certificate to Provide Electric Supply Services within the State Of Delaware (Submitted May 2, 2018) - PSC Docket No. 18-0302

Dear Mr. Sowyrda,

The Delaware Public Service Commission ("Commission") is in receipt of the application (the "Application") submitted by CSD Energy Advisors LLC ("Company") for certification to broker electric supply services in Delaware. This submission was severely deficient in meeting the minimum filing requirements for certification as an electric supplier to broker electricity in the state of Delaware. As stated on the electric regulation webpage of the Commission's website, applications that do not meet the minimum filing requirements may be rejected and the filing fee forfeited.

Staff sent a letter to the Company dated May 11, 2018 requesting the Company bring its Application into compliance by May 31, 2018. As of June 11, 2018, this Application remains severely deficient. This Application has been rejected and the docket has been closed. The filing fee has been forfeited. If the Company chooses to pursue certification as a later date, a new application and filing fee would be required.

Sincerely,

Shona Marshall
